

# CERTIFICATE OF PARTICIPATION

iversity hereby certifies that **Mr Stephen Edwards** has participated in the following course from November 2023 to November 2023:

## Financing of Gold Mining Projects

Taught by Dr. Michael (Mike) Seeger.

You now know the following:

- what are the dynamics of the gold mining industry
- how to develop a strong gold mining business case that will attract investment
- what are the different types of gold mining projects
- what are the capital requirements for the different stages of developing a gold mine
- what different types of capital are available for the financing of gold mining projects
- How to legally structure a gold mining project for financing
- the financing process and key components
- case studies of financing gold mining projects to be used as a reference

All the best,  
Michael Seeger

### About Mining Capital Advisors

Dr. Michael (Mike) Seeger is mining engineer involved in financing and developing mining projects in diverse commodities across the globe, with his consultancy MX Mining Capital Advisors. He is considered an expert in financing of mining projects and published a book "Mining Capital".
